

BRILLIANT PM^{PRO} Banqueting

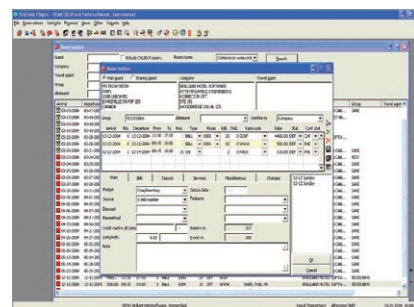

The **Brilliant Sales and Banqueting Module** helps you manage your conference rooms. From one screen you can make reservations for conference rooms and guest rooms. Included is the option of combining conference rooms and keeping track of the correct availability and prices. This virtually eliminates double bookings and reduces lost revenue due to missed charges. All of your various departments are linked to the banqueting event: management, kitchen, front desks, reception, etc. With automatic departmental reporting, everyone is informed about the status of the event and their respective requirements.

Features:

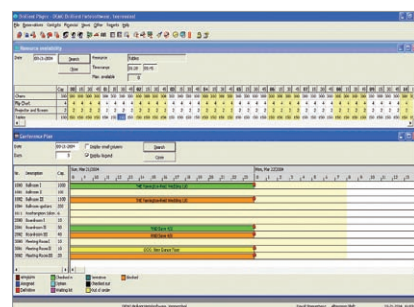

- Guest room group blocking with links to the meeting room
- Graphic meeting room scheduling
- Guest room group blocking and linking them to the meeting room
- Inventory of equipment: Flip charts, projection screens, chairs and tables etc.
- Automatic generation of confirmation letters and contracts for your guests in Microsoft Word or Outlook.
- Automatic posting and invoicing
- Multiple room booking
- Combination rooms
- Internal reports for different hotel departments
- Scheduling of multiple day events
